About Me

Exceptional product research & development skills, with abilities to actively problem solve. I'm a Colorado native. I do my best to take advantage of all that Colorado has to offer.

Experience

Carts of Colorado/Gallery Carts - Denver, CO | Nov '14-Present

- Director, National Accounts: Initializing projects, site evaluations, constructing preliminary layouts for design team, managing projects through design process, releasing projects to production team, managing margins and sell prices
- Installation Manager: Delivery of finished product, supervision of technicians, unloading and receiving, testing and final assembly, client relations, quality check, post job report - outline areas to improve, provide solutions to issues (design & fabrication)
- Industrial design engineer: Initial client meetings, 2D AutoCAD concepts, 3D renderings, job quoting, engineering metal parts for production, material drawings, job costing, material sourcing and pricing, vendor sourcing, vendor management, building processes

Green Guru Gear - Boulder, CO | July '14-Nov '14

- MfG Intern: Developing and sewing backpack prototypes, creating technical packets for manufacturing purposes

Sports Authority: Tommy Armour - Denver, CO | Feb. '14-June '14

- Design Intern: Golf bag development, user research, user profile, ideation, design for production, CAD models for factory prototyping, final renderings, finished product in stores
